- Upcoming Used Cranes
- Industrial Power Solutions
- Utility & Work Pickup Trucks

Expanding Your Lifting Capacity

Strengthen your lifting capacity with upcoming high-quality used cranes soon available through Afrik Appro.

We secure fully inspected units from trusted partners, offering excellent performance and cost efficiency for Oil & Gas, Mining, and Construction projects.

From 50T to 250T, our cranes combine reliability, documented maintenance history & fast shipment.

For specifications, inspections, or to reserve a unit before it is listed, contact our sales team.

Industrial Power Equipment

Discover our extended range of industrial-grade power and electrical equipment designed for demanding environments.

From power distribution to heavy-duty connectors and safety components, these solutions deliver durability, compliance, and consistent performance in harsh industrial conditions.

Ideal for Oil & Gas sites, mining operations, utilities, and infrastructure projects, our power equipment ensures stable operations and reduced downtime.

For technical details or sourcing support, contact our team.

Work-Ready Pickups for Your Teams

Reliable and cost-efficient pickup trucks are now available for industrial use across challenging African terrains.

With diesel engines, 4x2 or 4x4 configurations, and double-cab options, these vehicles provide the strength and versatility required for field operations.

Perfect for Oilfield services, Mining, Construction, NGOs, and government fleets, our pickups offer excellent value for money with fast delivery options.

Our team helps define your requirements, manage procurement, and coordinate logistics to your final destination.
