### Our New Financial & Strategy Lead

We are pleased to welcome Anne-Claire Sancet, who joins Afrik Appro as Financial & Operational Strategy Consultant.

With 18 years of experience in international banking and corporate advisory, she brings strong expertise in financial analysis, risk evaluation, and strategic planning. Anne-Claire will support our growth by strengthening financial governance, improving processes, and enhancing reporting across all operations.

**Welcome to the team, Anne-Claire! we are delighted to have you onboard.**

### Solving Sourcing Challenges

This month, Afrik Appro successfully handled several high-complexity procurement cases across Africa. Our teams located rare and obsolete components, secured certified equivalents to reduce lead times, and consolidated multi-supplier orders to simplify logistics and documentation.

These cases highlight our mission:  
*finding technical solutions where others stop searching.*

If your operations face sourcing challenges, Afrik Appro is ready to assist, from identification to delivery.

### Enhanced Quality Controls for Critical Shipments

Afrik Appro is strengthening its Pre-Shipment Inspection process as our export volumes continue to grow.

For all critical projects, our teams now conduct comprehensive checks covering dimensions, materials, visual conformity, Heat Numbers, MTC 3.1 certificates, and packaging standards before dispatch.

We also coordinate third-party inspections when required, ensuring independent validation of technical compliance and documentation.

This enhanced quality framework reduces non-conformities, improves traceability, and guarantees that every shipment meets the demanding requirements of Oil & Gas and Mining operators across Africa.

Quality, reliability, and certification remain at the core of our commitment to our clients.
